

TERM-CSC HANDHELD PROGRAMMING TERMINAL FOR CISCO DEVICES

- Fits to the electronic controlled Cisco amplifiers and optical nodes
- Does not need batteries
- USB port for easy loading the most recent drivers
- Clean and clear user interface

TECHNICAL SPECIFICATIONS

Communication parameters

Maximal data speed [baud]	38400
Supported device types	90100, 90200, 90201, 90300, 93240, 93230, 93250

General parameters

Power supply voltage [V]	24
Maximal current consumption [mA]	10
Connector type (data and power)	2.5 mm jack male
Temperature range [°C]	0...+50
Cable length [m]	1.5
Dimensions [mm]	165x80x30
Weight [kg]	0.21
